

BUDDHA INSTITUTE OF TECHNOLOGY
Department of Mechanical Engineering
ACADEMIC YEAR 2025-26

Industrial Visit Summary

The Mechanical Engineering Department, Buddha Institute of Technology organized an Industrial Visit on **18th February 2026** to **Amrit Bottlers Unit (Coca-Cola Plant) in Ayodhya** for the students of **4th and 6th Semester**.

The objective of the visit was to provide students with practical exposure to **industrial manufacturing processes, refrigeration & air-conditioning systems, fluid mechanics applications, automation, and quality control**.

The industry officials explained various processes, operations, and technologies used in the field. Students observed real-time applications of the concepts studied in the classroom and interacted with experts to gain deeper insights.

The visit enhanced students understands of Manufacturing processes, refrigeration & air-conditioning systems, fluid mechanics applications, automation, quality control, industrial safety, and work culture. Also motivated them to connect academic knowledge with industrial practices. Overall, the program was highly informative and beneficial for bridging the gap between theory and practice.

Total Number of Students Visited- 61
