

BUDDHA INSTITUTE OF TECHNOLOGY

DEPARTMENT OF MECHANICAL ENGINEERING

ACADEMIC YEAR 2025-26

Research and Start-up Workshop Summary

The Mechanical Engineering Department, Buddha Institute of Technology organized a Research and Start-up Workshop on **20/02/2026**. The session was delivered by **Mr. Ankur Kumar, Incubation Head, Buddha Innovation Council** and **Mr. Pratish Kannaujiya, Incubation Manager, Buddha Innovation Council**.

During the Workshop, the speakers shared their professional experiences, career journey, and valuable insights of from project to product, a complete roadmap for Startups, Patents & Conference Publications. **etc.** Students were guided on Converting final-year projects into quality research publications.

The discussion focused on real-world engineering applications — from sustainable construction solutions to smart mechanical systems — encouraging students to move beyond academic submissions toward market-ready innovations.
