**Event Summary: TechWizard – (Web Development)**

**Department of Computer Science & Engineering (AIML/DS)**

**Date:** October 13, 2025

**Total Participants:** 122 Students

The **CSE(AIML/DS) Department** successfully organized **TechWizard**, a hands-on event focused on **Web Development**, aimed at enhancing students' technical skills and fostering creativity in building modern web applications. The event introduced participants to essential front-end and back-end concepts, including HTML, CSS, JavaScript, and responsive design principles.

Throughout the session, students engaged in interactive demonstrations, practical coding exercises, and real-time project development. Mentors provided guidance on best practices, UI/UX fundamentals, and the use of popular tools and frameworks. The event encouraged participants to think critically, collaborate, and apply their learning to create functional web pages.

Overall, the event was both educational and inspiring, successfully boosting students' interest in web technologies and preparing them for future opportunities in the field of software development
