

# BUDDHA INSTITUTE OF TECHNOLOGY

## DEPARTMENT OF COMPUTER SCIENCE & INFORMATION TECHNOLOGY

### ACADEMIC YEAR 2025-26

### Alumni Lecture

The Department of Computer Science & Information Technology organized an Alumni Lecture for Computer Science and Information Technology students on the topic “**Recent Trends in the IT Industry.**” The session was delivered by **Pragati Srivastava (IT Batch 2021)**, currently working as a Specialist Programmer (SDE) at Infosys, Gurgaon.

During the lecture, she discussed emerging technologies such as **Artificial Intelligence, Machine Learning, Cloud Computing, Cybersecurity, Data Analytics, and IoT**, highlighting their impact on the future of the IT industry. She also emphasized the importance of continuous learning, technical skill development, problem-solving abilities, and industry-relevant certifications.

Ms. Srivastava shared her professional journey and provided valuable guidance on internship preparation, campus placements, coding skills, and career growth. The interactive session helped students gain insights into current industry expectations and future opportunities in the technology sector.

The lecture was highly informative and motivating, encouraging students to enhance their skills and stay updated with the latest technological advancement
