

BUDDHA INSTITUTE OF TECHNOLOGY

DEPARTMENT OF COMPUTER SCIENCE & INFORMATION TECHNOLOGY

ACADEMIC YEAR 2025-26

Alumni Speaks

My journey at Buddha Institute of Technology has been a foundation for both my professional and personal growth. The institute provided me with a supportive learning environment, dedicated faculty members, and numerous opportunities to develop my technical and interpersonal skills.

The continuous guidance and encouragement from my teachers helped me build a strong academic base and gain confidence in my abilities. The Training & Placement Department played a significant role in preparing me for the corporate world through placement-oriented activities, skill development sessions, and career guidance.

Today, as a Specialist Programmer (SDE) at Infosys Technologies, I can confidently say that the values, knowledge, and experiences gained at BIT have contributed immensely to my success. It is a matter of pride to return to my alma mater and interact with the next generation of engineers through the Alumni Speak session on "Recent Trends in the IT Industry."

I encourage all students to make the most of the opportunities available at BIT, stay committed to continuous learning, and believe in their potential. Success comes to those who remain dedicated, adaptable, and willing to learn throughout their journey.

I sincerely thank Buddha Institute of Technology for shaping my career and helping me become the professional I am today.
