

BUDDHA INSTITUTE OF TECHNOLOGY

DEPARTMENT OF COMPUTER SCIENCE & INFORMATION TECHNOLOGY

ACADEMIC YEAR 2025-26

Placement Tips Seminar Summary

The Computer Science and Information Technology Department, Buddha Institute of Technology, organized a **Placement Tips Seminar** on **14-02-2026**. The session was delivered by **Mr. Priyanshu Vishwakarma**, currently working as a **trainer, Umaga Edutech Private Limited**, to enhance their employability skills and prepare them for upcoming campus placement opportunities.

The seminar focused on guiding students about the placement process, industry expectations, and effective preparation strategies. Students were informed about various stages of recruitment, including aptitude tests, technical interviews, group discussions, coding assessments, and HR interviews.

Key topics covered during the seminar included:

- Importance of maintaining a strong academic record and technical proficiency.
- Preparation strategies for aptitude, reasoning, and verbal ability tests.
- Enhancement of programming and problem-solving skills through regular coding practice.
- Building an effective resume highlighting projects, internships, certifications, and achievements.
- Creating and optimizing professional LinkedIn profiles.
- Developing communication, presentation, and interpersonal skills.
- Common interview questions and techniques for confidently answering them.
- Time management and consistency in placement preparation.
- Importance of internships, industrial training, and participation in technical events.

The speaker also shared valuable insights on current industry trends, emerging technologies, and the skills most sought after by recruiters. Interactive discussions and question-answer sessions enabled students to clarify their doubts regarding placement preparation and career planning. The seminar concluded with a motivational message encouraging students to remain focused, continuously upgrade their skills, and actively participate in placement-related activities. Overall, the session proved highly beneficial in creating awareness and boosting the confidence of students for future placement opportunities.
